

**Amendments to the Drawings:**

The attached sheets of drawings include changes to Figs. 17P-17U on sheets 72-74. These drawings have been renumbered, respectively, as Figs. 17O-17T. In the drawings submitted on March 4, 2005, there was no Fig. 17O and there were two Figs. 17U (on sheets 74 and 75).

In Fig. 18B-3, the region numbered 364E has been corrected to 364L to make it consistent with the specification at page 64, line 27.

### REMARKS/ARGUMENTS

Claims 1-70 were rejected solely on grounds of obviousness-type double patenting over Claims 1-21, 25-28, 35, 36, 38, 60, 61, 72-81, 91, 94-96 and 120-123 of U.S. Patent No. 6,855,985, which is the parent of this application.

Without conceding the validity of this rejection, Applicants have elected to file a terminal disclaimer with respect to the above-referenced U.S. Patent No. 6,855,985. This effectively overcomes the rejection.

### Drawings

Replacement drawings are being filed to correct several errors which are described in the preceding section of this amendment.

### Specification

The specification is being amended to correct several typographical and other minor errors. No new matter has been added.

Accordingly, Applicants respectfully request allowance of Claims 1-70. Should the Examiner have any questions concerning this response, the Examiner is invited to call the undersigned at (408) 982-8201.
